PROFESSIONAL SUMMARY

Computer Engineering student with hands-on experience in programming, web development, and data analytics. Proven leadership as President of International Students Club. Proficient in Python, C, SAP ABAP, and full-stack web development with expertise in Adobe Photoshop, social media marketing, and project management. Completed professional simulations with Forage Academy and Deloitte Australia, demonstrating strong analytical and problem-solving capabilities suited for innovative tech environments.

EDUCATION

Bachelor of Technology in Computer Engineering

Pimpri Chinchwad College of Engineering

Expected Graduation: 2026

Pune, Maharashtra

- Relevant Coursework: Data Structures, Algorithms, Database Management, Web Development, Systems Design

TECHNICAL SKILLS

Programming Languages: Python, C, SAP ABAP, JavaScript, HTML, CSS

Web Development: Full-Stack Development, Responsive Design, Frontend & Backend Integration

Tools & Technologies: Adobe Photoshop, Git, SQL, Data Analytics Tools

Core Competencies: Project Management, Social Media Marketing, Data Labeling, Problem Solving, Team Collaboration

LEADERSHIP EXPERIENCE

President, International Students Club

Pimpri Chinchwad College of Engineering

2023 – Present

Pune, Maharashtra

- Led a diverse team of 50+ members, organizing cultural events and workshops that fostered international collaboration and cross-cultural understanding
- Managed end-to-end event planning including budgeting, vendor coordination, and logistics for events with 300+ attendees
- Developed and executed social media marketing campaigns across multiple platforms, increasing club engagement by 150%
- Coordinated with college administration and external stakeholders to secure funding and resources for club initiatives
- Mentored club members in leadership development and professional skills, improving team productivity and member retention

PROFESSIONAL DEVELOPMENT & CERTIFICATIONS

Data Analytics Job Simulation

Deloitte Australia

- Completed comprehensive data analytics simulation covering data cleaning, analysis, and visualization techniques
- Applied statistical methods and analytical frameworks to solve business problems and generate actionable insights
- Demonstrated proficiency in data interpretation and presentation of findings to stakeholders

Data Labeling Job Simulation

Forage Academy

- Gained hands-on experience in data annotation and quality assurance for machine learning projects
- Developed understanding of training data requirements and best practices in AI/ML workflows
- Applied attention to detail and consistency in large-scale data processing tasks

TECHNICAL PROJECTS

Full-Stack Web Application Development

- Designed and developed responsive web applications using modern frameworks and best practices
- Implemented RESTful APIs and database integration for dynamic content management
- Optimized application performance and ensured cross-browser compatibility

Systems Design & Programming Projects

- Developed efficient algorithms and data structures for solving complex computational problems
- Created Python and C programs demonstrating strong understanding of object-oriented programming principles
- Collaborated on team projects using version control and agile methodologies

ADDITIONAL INFORMATION

Interests: Emerging Technologies, AI/ML, Cloud Computing, Open Source Contribution
